

Renewable Energy Plant at Leith - Additional Scoping Opinion Response

Leith Central Community Council further consider the following Issues to be of High Significance and would like answers to the following questions (the numbers refer to section numbering in the Scoping Report).

Our further concerns relate to:

6.10 Socio-economic and Land Use

What is Forth Energy's response to the fact that the seaward extension of activity will prejudice further the proposed promenade/boardwalk?

We understand that Highland Council wish to engage with the Crown Estate in establishing a community benefit fund (to be modelled on Shetland Council's oil fund) for highland communities adjacent to the sites of proposed wave/tidal/offshore wind developments, and that they are seeking a memorandum of understanding to be a condition of these developments. What are Forth Energy's community benefit proposals?
